Agora

With original meaning of its name in mind, Agora is designed to foster collaborative behaviours. Being comprised of five elements, it can serve as a bench, a shelf, a sofa

or a bespoke combination of these units at the same time. Built on tubular structure, Agora can be as long as you need it to be. It can take right turns and work back to back.

Designers

Form Us With Love, is the international design studio founded in 2005. Since its conception, the studio has burned with a passion for design and its democratic potential. Its belief is that we all have a right to meaningful design.

At the studio's core lies a process that blends traditional creative practices with a lean, strategic application. The central intention is to evolve with the needs of each project, its place in the market and the ever-changing needs of real people.

Today, the work of Form Us With Love falls into three areas: Consultancy—an engagement in products, ranges, collaborations and spaces for clients around the world, Ventures—disciplined and holistic approaches to launch and build brands, Civic—based on knowledge transfers and sharing of experiences, actively contributing to the broader spectra of design.

Agora

Agora

Agora

Allowing for multiple configurations, Agora embodies flexibility. As it is built on gridded structure, it can be arranged as straight 2-seater as well as corner sofa system accommodating as many people as you need. With two seat types made from highly durable foam, Agora can be tailored to your comfort. Choose either cushion seat or option with comfy backrest following a minimal aesthetic in a spectrum of colours – from vibrant to muted.

Add table top for increased functionality or three-tiered shelving unit when extra storage is needed. Combine these square-shaped units to create any sitting area suited to the character and size of space arranged – from partitioned meeting point through chill-out zone to a place to welcome visitors.
