

IREST EASYQ (A166)

THE CLASSIC OF COMFORT MASSAGE

The **iRest Easyq (A166)** is a compact model that offers the most important functionalities to provide enjoyable massage within its small size. Perfect relaxation even in limited spaces.

- The **massaging arms** of the iRest Easyq (A166) chair move in two dimensions to ensure that tensions are effectively eliminated and pleasant relaxation is achieved.
- The effective **massage range** extends from the neck, through the entire length of the back down to the hips. The curved SL-shaped linear guide along which the massaging arms travel ensures proper alignment with the spinal column.
- The chair allows massage in the **Zero Gravity** position, taking the strain off the muscles at the spine and allowing for even better muscle relaxation.
- For even more pleasant relaxation, **airbags** act to massage the muscles in the thighs, calves and feet. They effectively take the tension off them and stimulate blood circulation. What is more, the extremely pleasant IR heating function contributes to de-stressing and increases the pleasure of the massage.
- **Foot massage rollers** are featured in this class of chairs for the first time. This extremely relaxing massage provides tired feet with soothing relief.
- Its **minimalist design** finished with great attention to detail makes it a perfect addition to any interior.

All in all, the iRest Easyq (A166) is the best choice for those looking for a pleasant and effective massage in a compact format.

Key features of iRest Easyq (A166):

- **8** automatic programmes, **5** massage techniques, speed adjustable in **3 levels**;
- **SL-shape** - massage is carried out from the neck, all the way down the back to the hips. The SL-shaped linear guide adapts to the natural curvature of the spine;
- **Zero Gravity** - the most pleasant massage position of all, relieves the muscles around the spine and enhances the massage experience;
- **Roller foot massage** - with the support of airbags, the massage rollers effectively de-massage the feet;
- **Heating** - pleasant warmth across the back makes it easier to relax tense muscles.
- **Bluetooth** - connecting your own device to the chair using Bluetooth lets you enjoy massage while listening to the relaxing sounds of your favourite music.
- **Airbag massage** - the airbag massage targets the thigh, calf and foot areas, removing tension and stimulating blood circulation.
- **Controls** - the massage chair functions can be controlled via a handy built-in panel or by voice control in English.
